WHEAT AT BETTER PRICES.

MAY CLOSES WITH 5-Se ADVANCE OVER TUESDAY'S CLOSE. Helped by the Good Cash Business in

Chicago and St. Louis-Corn and Onts Steady-Provisions Strong, Higher.

Chicago, Jan. 20.-Wheat was helped today by the good cash business here and at St. Louis, and closed at %c advance, after wobbling about nervously all through the Bad weather kept corn and oats stendy, the former closing at a slight ad-Provisions were strong and closed 246010c higher.

In wheat, Liverpool was again the factor at the opening. That market opened ¼d lower, which was not at all commensurate with yesterday's local decline, and cables showed this loss recovered. Opening quotations for May were 74/20%, compared with yesterday's closing price of 7914c, and with yesterday's closing price of 79½c, and sold at once to 73½680c. Although the Liverpool market opened at ¼d decline, May wheat here started a shade firmer than it closed yesterday. The opening business was at from 79½c to 79½c, and before it sold below the lower of these prices, it brought ½c more than the highest. It then gradually declined again to 79½c, and even to 79½c for a few seconds, sold later under the influence of what appeared from St. Louis about demand for cash wheat there, and the quantity sold yesterday aft-St. Louis about demand for cash wheat there, and the quantity sold yesterday afternoon at the same plane, the price had a sudden rise to 80% before the sellers again outnumbered the buyers. The first decline after the comparative strength at the start was owing to reports of a renewal of yesterday's weakness at the local stock cxchange. The chief interest centered around the amount of wheat sold at St. Louis to go to Southern millers. The last report concerning it was that during yesterday's session 69,000 bushels were sold, and before the close of the session, 250,000 bushels more.

In addition, 110,000 bushels were sold to day, making a total of 420,000 bushels, and it was reported all of it was to millers in the South. Chicago also dis a good cash business, two prominent brokers reporting sales of 125,000 bushels. Chicago receipts were 29 cars, against 70 last year. North western receipts were also small, Minne apolis reporting 155 cars and Duluth 5 cars, a total of 212 compared with 213 hs week and 255 last year. The closing public cablegrams did not differ materially from those received earlier in the day. Virgini; cablegrams did not differ materially from those received earlier in the day. Virginia and Georgia millers were making in-quiries in Minneapolis with a view to pur-chases of spring wheat, and an actual sale of 10,000 bushels at 15c per bushel delivered at a Georgia station was reported from Minneapolis as having been consummated. This and the cost bushess made a strong ing toward the close, and May, which he meantime had declined again to advanced to 80% 690% c and closed at

in the meantime had declined again to 194c, advanced to 80% 930%c and closed at 80% 930%c and closed at 80% 930%c.

Corn was fairly active and steady, with but few sales in large lots. Some weakness developed early in sympathy with wheat, but the unfavorable weather and some covering of shorts caused by the strength to wheat near the close gave an upturn to the market. Clearances were liberal—660,000 bushels. May opened 4c higher, at 244c, steady at about the latter price.

Gats were firm early in sympathy with wheat and with some country buying. Heavy offerings by the short contingent caused some decline, which was recovered later, when covering set in. Trading was confined almost entirely to scalping. May opened a shade higher, at 184c, sold 1-lie in provisions the smaller receipts of hors.

In provisions the smaller receipts of hogs In provisions the smaller receipts of hogs than expected caused a firm opening at some improvement in prices. There was a good foreign inquiry, and although the market was extremely dull, it received enough support to advance prices still more. At the close, May pork was about 10c higher, at \$8.02%; May lard about 2½c higher, at \$4.07%44.10. and May ribs about 5c higher, at \$4.07%44.10. Thursday—Wheat, 20 cars; corn, 215 cars; oats, 175 cars; hogs, \$6,000.

Primary market receipts of wheat yesterday were 232,000 bushels, against 332,000 bushels, against 432,000 bushels, against 766,000 bushels a year ago. A cable from London says that 2,000,000 acres of wheat are reported to have been killed in Russia by cold weather. Kaffir Corn.

W. W. Cowen, who handles more Kaffir corn here than any one man, in speaking of it yesterday, said:

"Kaffir corn, from which so much was anticipated as a substitute for wheat, has not fully met expectations this season, although we learn from shippers from the country that as a food for cattle is has proved very desirable.

"A commission man here who has handled a very considerable amount of it states that owing to the extravagant newspaper articles published regarding it, and also from the experience of those who tested some of the choice sample lots of the 1895 crop, there was an active demand for it early this season at from 8 to 10 cents a bushel (56 pounds) over Indian corn, but that the quality raised last year in Kansas and Oklahoma is so very inferior, being poorly matured, field damaged and very dirty, that buyers after trying it refused to bid for more.

"To-day it is offered, track, Kansas City, at 28 to 21 cents, but owing solely to its low average quality, there is no regular market for it.

"The experience of our local handlers of this corn convinces them that if the farmers would be more particular in planting and harvesting, and would cultivate it the same as broom corn, this cereal would find a ready market at a price that would pay them much better per acre than indian corn, and, as it can be raised in the most arid districts, the less rain the better, farmers in Kansas should profit by last year's experience, and, by paying more attention to its cultivation, produce a crop that will be readily marketable and prove the most profitable that they can raise."

New York, Jan. 20.—There was a further decided shrinkage in the volume of business in stocks to-day and prices worked toward a lower level, chiefly as a result of bear aggression. Speculation of a rise was discouraged at the outset by a reaction in the London prices of American securities and the indisposition of commission house clients to trade left the field comparatively clear for the bear professionals and room operators. Selling by houses with Washington connections was somewhat of a feature and the specialties, as usual in a narrow market, scored the wildest fluctuations in prices. The industrials, as a group, overshadowed the railway shares in point of activity, but, generally speaking, the distribution of the dealings was not up to the recent average. The close was steady. The close was steady.

The bond market gave the first evidence of weakness to-day that has been apparent in this department for a long time. The losses, however, were not material, except in a few instances, and business was more generally centered in the speculative issues. The sales were \$1.424.000.

Dry Goods.

New York, Jan. 20.—There was considerable business done in bleached cottons at the new prices, which led up to more doing in other kinds of goods, and the collective takings were very large for a first day's work. Dress goods and printed fabrics were looked after with increased interest and the engagements confirmed all reports as to the improved trade in motion. Printing cloths in demand, but any business was restricted to odd goods of which fair sales were reported.

There was quite a drop in the receipts yesterday and the best cattle ruled a little irmer, both native and range steers, but meditin and low grades were draggy and generally a little lower. There were no fancy export cattle in, but several sales were made as high as \$4.85. Cows were about steady, with a few exceptions, both higher and lower, as to quality. Stockers and feeders were unchanged. There were a good many in speculators hands, but the fresh receipts were only moderate. Good fresh receipts were only moderate. Good stockers and light feeders were in good demand and steady, but heavy feeders were slow sale and weak to a little lower. Milch cows in fair demand and steady. Common, \$15418; medium to fair, \$20427; good to choice, \$30440.
